Solution Up'n Bag Clic[®]

Solution

Up'n Bag Clic is a reliable open-close solution for pouches or trays. Thanks to the thick material used for the special locking system, the pouch or container can be kept wide open. That means you can easily pour with one hand and also avoid the risk of contaminating the adhesive.

Use

- food industry or others
- dried or fresh food products (for example: dehydrated fruit, sweets, pulses, cakes,...)
- Can be used on all types of pouches (doy pack, quattro seal, flow pack...)

Advantages

- Easy to open
- Various reclosure possibilities
- Self-blocking locking system to keep the pouch wide open
- Easy to pour or pick the product with only one hand
- Food preservation (airtight, barrier)

Plus points for you!

- Innovative solution
- Differentiated product compared to your competitors
- User-friendly solution, for all age groups (from children to seniors)
- Can easily be customized with your own logo and brand name
